SECTION 3 – CERTIFICATION / SIGNATURE

An authorized representative of the manufacturer must sign on behalf of the business.

I certify under penalty of perjury under the laws of the State of California that I have personally completed this form and know that the contents thereof, the information contained herein and in any attachments, is true, accurate, and complete. I also certify that any card-minding device and its designated software version indicated on this form meets the requirements of PC 326.5(p) and understand that the interim approval is subject to the following conditions:

- (1) An interim approval shall be valid for one year from the date it is granted by the Commission or until regulations specifying additional criteria for card-minding devices become effective, whichever is later.*
- (2) An interim approval does not obligate the Commission to grant a regular approval and does not create a vested right in the holder to either an extension of the interim approval or to the granting of a subsequent regular approval.*
- (3) An interim approval does not in any way change the legal requirement that the applicant bears the burden of establishing that a specific device complies with all of the provisions of paragraphs (1) and (2) of subdivision (p) of section 326.5 of the Penal Code.*
- (4) Issuance of an interim approval concerning a specific card-minding device has no bearing on the question of whether the manufacturer of the device, or any affiliated person, will qualify for issuance of any Commission permit, registration, or license. Any interim approval will be cancelled in the event that the manufacturer of the device is subsequently determined to be ineligible for licensure.*
- (5) If, during the term of an interim approval, it is determined that any particular card-minding device is not qualified for approval, the Executive Director shall prepare an order to show cause why that device's interim approval should not be cancelled. The manufacturer of the device shall be given at least 30 days to respond in writing. After receipt of the manufacturer's response, the matter shall be set for consideration at a noticed Commission meeting. The manufacturer may address the Commission by way of an oral statement at the Commission meeting and, either in writing not less than ten days prior to the meeting or at the meeting itself, may request an evidentiary hearing.*
- (6) Any card-minding device and its designated software version that possess an automatic daubing capability shall have that capability disabled.*
