San Rafael, CA 94903Re: *Cachil Dehe Band of Wintun Indians v. Salazar, et al.* (Case No. 12-cv-03021-TLN-AC)

Counsel:

As you know, the Estom Yumeka Maidu Tribe of the Enterprise Rancheria ("Tribe" or "Enterprise") committed on January 3, 2013 to provide 30 days' notice prior to commencing construction of a gaming facility. (Declaration of Glenda Nelson in Support of Motion to Intervene (ECF 13-3) at 5.)

That notice period was subsequently extended to 60 days in the Court's March 4, 2013 Order Governing Further Proceedings. (Stipulation and Order Governing Further Proceedings (ECF 69) at 2.)

I now write to inform you that the Tribe plans to initiate construction of a small, temporary Class II gaming facility on land held in trust for the Tribe near Olivehurst, California (the "Yuba Site"). The temporary facility will include a small gaming floor, office space, and modest "back-of-house" facilities. The facility will not have permanent water and wastewater connections; instead, water will be trucked in and wastewater trucked out. In total, the temporary facility will be approximately 10,000 square feet.

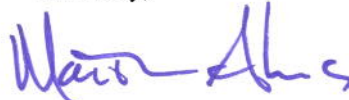

By way of comparison, the "preferred alternative" evaluated in the Department of the Interior's 2010 Final Environmental Impact Statement and approved in the Department's Record of Decision ("ROD") would cover 317,885 square feet.

Page 2

The Tribe's temporary facility will not affect any portion of the Yuba Site identified as garter snake habitat, a potential wetland, or within the 100-year flood plain. It will also comply with all applicable mitigation measures set forth in the ROD. An initial draft site plan is attached for your reference.

Please contact me if you have any questions.

Sincerely,

Matthew Adams
