Dear Sir;

At the assessors office in Santa Rosa they are trying to hold me for another years taxes on the 50 acres which I have sold to the Government which I do not believe is right but they claim that they can not do any different on account of the deeds not being recorded untill the 16th of March.

I am writing to ask if you would give me a sworn affidavit that the land was out of my possession on the First Day of March 1927 and in the possession of the Government and also call on U.S. Attorney Webb and ask if he would write to the District attorney of Sonoma County giving him authority to cancel this assessment which I believe he will do under the circumstances.

I do not like to cause you the trouble but I am sure I do not like to pay another years taxes and do not think it right.

If you would send me the affidavit and they do not take the assessment off now I could go before the Board of Supervisors and get it canceled later with the Attorney (*Dick*) ~~Generals~~ consent.

Trusting that you will do this for me I am,

Yours very truly,

R. A. Gobbi
