RE: Traffic Mitigation on Singley Road

The County of Humboldt, Bear River Rancheria, and citizens concerned about traffic northbound on Singley Road from the casino had a meeting on June 12, 2008 to discuss additional traffic calming improvements to prevent and mitigate this traffic.

At the meeting, one of the items that the residents discussed was the placement of permanent speed humps on the section of Singley Road north of the casino be evaluated.

Since not all of the residents who will be affected by the placement of permanent speed humps were able to attend the meeting, the Humboldt County Department of Public Works is requesting that all residents respond to the attached survey indicating your preference for this proposed traffic calming mitigation.

In accordance with the speed hump policy adopted by the County of Humboldt, available on-line at the Public Works home page (<http://co.humboldt.ca.us/pubworks>), the County requires that at least 66% of the residents be in support of the installation of speed humps.

Please provide your response on the attached form to the Department by 8/29/2008. If the number of positive responses indicate that 66% of the residents support this mitigation, the Department will work with the residents and the Rancheria to install speed humps.

Sincerely,

Thomas K. Mattson, PE
Director of Public Works
