EXECUTIVE SUMMARY

This report to the Joint Legislative Budget Committee on the use of funds from the Indian Gaming Special Distribution Fund (SDF) to “support problem gambling, regulatory costs, and local mitigation grants between 2003-04 to 2014-15” was prepared pursuant to the Supplemental Report of the 2014-15 Budget Package, Item 0855-111-0367. The report was prepared by the California Gambling Control Commission (Commission) in coordination with information provided by the following state agencies and the California Gaming Association:

- | | |
|---|---------------------------------|
| ✓ Department of Justice | ✓ Department of Public Health |
| ✓ Department of Human Resources | ✓ State Controller’s Office |
| ✓ Financial Information System for California | ✓ California Horse Racing Board |
| | ✓ State Lottery |

TOTAL SDF EXPENDITURES.

SDF expenditures to support problem gambling, regulatory costs, and local mitigation grants totaled approximately \$521.7 million from FY 2003-04 through 2014-15. Local mitigation grants to local jurisdictions totaled \$221.6 million or approximately 42.5 percent of expenditures, and comprised the largest portion of SDF expenditures. Other primary expenditures are listed below, by agency:

- ✓ Department of Justice: \$164.3 million (31.5 percent of expenditures);
- ✓ Department of Public Health (Office of Problem Gambling): \$69.2 million (13.3 percent of expenditures); and,
- ✓ Commission: \$65.5 million (12.5 percent of expenditures).

SUMMARY OF SERVICES AND ACTIVITIES, FUNDING FOR EACH SERVICE OR ACTIVITY, AND MEASURES OF WORKLOAD, WHERE AVAILABLE.

Services and Activities. The primary services and activities funded by the SDF included the following: (1) Regulation and Enforcement, (2) Problem Gambling Prevention and Treatment; (3) Local Mitigation Grants; and (4) Legal. The nature of services performed by state agencies are summarized below by state agency:

- ✓ Commission – performs various trustee, regulatory and administrative responsibilities (formerly included auditing and testing of Gaming Devices);
- ✓ Department of Justice – performs compliance and enforcement functions; provides legal support, information technology support, and administrative support;
- ✓ Department of Public Health (Office of Problem Gambling) – establishes a prevention program that includes a toll-free helpline, public awareness campaign, training, evidence-based research, and support for a treatment services program; and,
- ✓ State Controller’s Office – allocates grant appropriations to county accounts and releases grant funds to local government entities impacted by tribal gaming (funds are a “pass-through” from the Commission’s budget);

Workload Measures. The Department of Justice, Department of Public Health, and the Commission provided workload measures.

HOW PROBLEM GAMBLING, REGULATION, AND LOCAL MITIGATION PAYMENTS AND ACTIVITIES ARE FUNDED BY HORSE RACING, THE STATE LOTTERY AND CARDROOMS.

HORSE RACING

Problem Gambling. Since 2008, \$1.4 million has been paid by California horse racing associations or fairs “for the purpose of augmenting a compulsive gambling prevention problem specifically addressing that problem.” In addition, excess amounts collected from advanced deposit wagering are used to augment a compulsive gambling prevention program as provided under Business and Professions Code section 19604.

Regulation. The regulation of horse racing is funded from wagering receipts collected by racetracks, including California fairs, for wagers placed on horse race meetings in California.

Local Mitigation. Local municipalities receive a percentage of handle (monies wagered) at a racetrack within their borders. In 2014, this deduction totaled \$3.6 million and was paid to 32 local municipalities where racetracks or satellite wagering facilities are located. In addition, California horse racing associations distribute race proceeds to charity on designated race days. These race day donations are approved by the California Horse Racing Board. The racing association determines the charity and designated funds pass from the racing association directly to the charity.

STATE LOTTERY

Problem Gambling. The California Lottery has an Interagency Agreement with the Department of Public Health (Office of Problem Gambling) and provides \$120,000 in annual funding for problem gambling services and activities. A portion of the Lottery funding also supports a youth-driven problem gambling awareness campaign.

Regulation. Regulatory costs are self-funded via revenues from the sale of lottery tickets.

Local Mitigation. The Lottery is charged with providing supplemental funding for public schools and colleges. Last year, the Lottery provided \$1.35 billion in supplemental funding for California’s public education system.

CARDROOMS

Problem Gambling. Each cardroom is required to pay an annual \$100 per table fee to the Department of Public Health, for deposit into the Gambling Addiction Program Fund. Deposits are also made into this fund from the forfeited winnings of patrons that violate voluntary agreements to self-exclude from cardroom gambling. Funds are allocated to community-based organizations that directly provide aid and assistance to those persons with a gambling addiction. Since FY 2009-10, expenditures from the fund have totaled \$906,000. According to information provided by the California Gaming Association (CGA), a non-profit trade organization which represents card rooms throughout the state, their members work closely with their jurisdictional partners to address issues surrounding problem gambling. Additional information on problem gambling programs associated with cardrooms is provided on page 5 (see “Local Mitigation”).

Regulation. The regulation and enforcement of the cardroom industry is funded by fees paid by the cardroom industry to the Gambling Control Fund. In addition, applicants are required to pay expenses incurred by the Department of Justice for investigations. Investigation expense funds are deposited into an investigative account within the Gambling Control Fund. The Gambling Control Act also authorizes the collection of fines and penalties that are deposited into a special account in the General Fund.

Local Mitigation. Cardrooms are required to pay various annual fees and taxes to local jurisdictions that vary by jurisdiction. According to the CGA, certain local ordinances require additional special payments to the jurisdiction to offset problem gambling programs and law enforcement oversight. Based on information obtained by the Commission from local jurisdictions, some cardrooms are required to fund problem gambling programs or provide services related to problem gambling. For example, one jurisdiction requires cardrooms to make payments to fund local gambling addiction programs, while another jurisdiction requires problem gambling literature to be made available to patrons.

The CGA also indicated that the majority of local fees paid by cardrooms to their respective jurisdictions are believed to be “general fund” monies that are used for police and fire support, mitigation of resource use, and other local services. Commission staff contacted local jurisdictions regarding payments that cardrooms are required to make to local jurisdictions and confirmed that some cardrooms are required to pay taxes or fees that are deposited into the general fund. These funds are primarily used for law enforcement. One jurisdiction also requires cardrooms to pay for supplemental police services to cover the actual costs of weekend police services related to the cardrooms.

HOW THE COMMISSION DETERMINES A TRIBE’S PRO RATA SHARE OF STATE COSTS PURSUANT TO COMPACTS OR SECRETARIAL PROCEDURES.

A tribe’s pro rata share of state costs is based upon the terms of the applicable compact or procedures and is calculated by the following equation:

The maximum number of gaming devices operated in the gaming facility for the previous fiscal year as determined by the State Gaming Agency (Commission), divided by the maximum number of gaming devices operated by all federally recognized tribes in California pursuant to tribal-state Class III gaming compacts during the previous fiscal year, multiplied by the state’s appropriated costs for the performance of duties by state agencies related to Class III gaming compacts.

INTRODUCTION

REPORTING REQUIREMENT. Pursuant to the Supplemental Report of the 2014-15 Budget Package, Item 0855-111-0367, the Commission shall report to the Joint Legislative Budget Committee on the use of funds from the SDF to support problem gambling, regulatory costs, and local mitigation grants between Fiscal Years (FY) 2003-04 to 2014-15. Specifically, the report shall include the following information:

- (a) The total amount of funding allocated to the California Gambling Control Commission (Commission), the Department of Justice (DOJ), the Department of Public Health (DPH), and any other state agency receiving funding from the SDF.
- (b) For each of the state agencies receiving funding from the SDF, a summary of:
 - (1) The services or the activities provided that are supported by this fund;
 - (2) How the agency allocated funding among the identified services or activities;
 - (3) The specific amount of funding provided for each service or activity; and,
 - (4) Measures of workload completed for each service or activity where available.The DOJ, DPH, and any other state agency receiving funding from the SDF shall provide such information to the Commission.
- (c) A description of how problem gambling, regulation, and local mitigation payments and activities are funded by horse racing, the State Lottery and cardrooms. The Horse Racing Board and the State Lottery shall provide such information to the Commission.
- (d) A description of how the Commission determines a tribe's pro rata share of state costs deemed permissible in 25 U.S.C. Section 2710(d)(3)(C), as required in their tribal-state gaming compact or secretarial procedures.

SDF FUNDS ALLOCATED TO STATE AGENCIES - SECTION (a)

Section (a) of the report requires the Commission to include information on the total amount of SDF funding allocated to any state agency receiving funding from the SDF. In addition to the Commission, the following state agencies received SDF funding between FY 2003-04 and FY 2014-15:

- ✓ DOJ.
- ✓ DPH and the former Department of Alcohol and Drug Programs (for the Office of Problem Gambling).
- ✓ Department of Human Resources (CalHR) and the former Department of Personnel Administration (DPA).
- ✓ Financial Information System for California (known as “FI\$Cal”).
- ✓ State Controller’s Office (SCO).

The Commission, DOJ, and DPH received SDF funding for each year of the reporting period while DPA/CalHR, FI\$Cal, and the SCO received funding for a portion of the reporting period.

As the report requires information on the use of funds from the SDF to “support problem gambling, regulatory costs, and local mitigation grants between FY 2003-14 to 2014-15”, expenditures for these purposes are detailed in Table 1, by agency and by type, including state operations (expenditures for the support of state government) and local assistance (expenditures for the support of local government or other locally administered activities). SDF expenditures to support problem gambling, regulatory costs, and local mitigation grants totaled approximately \$521.7 million over the 12-year period, summarized as follows:

<u>Agency</u>	<u>Expenditures</u>
DOJ:	\$164, 256,000
Commission:	\$65,477,000
DPA/CalHR:	\$615,000
FI\$Cal:	\$376,000
DPH:	\$69,156,000 (Includes \$41.2 million for state operations and \$28 million for local assistance.)
SCO:	\$221,804,000 (Includes \$221.6 million for local mitigation grants. While these grant funds were appropriated to the Commission, grant funds were released to local jurisdictions by the SCO and shown as SCO expenditures.)

In addition, there were statewide general administrative expenditures that totaled \$53,000.

It is important to note that the report does not include information on the use of funds from the SDF for shortfalls in the Indian Gaming Revenue Sharing Trust Fund (RSTF), as the reporting mandate was limited to the use of funds from the SDF to “support problem gambling, regulatory costs, and local mitigation grants”. Information on the RSTF can be found on the Commission’s website and the Governor’s Budget. The Commission posts quarterly and annual reports related to the RSTF on its website at www.cgcc.ca.gov.

Note: Numbers may not add up due to rounding.

(1) Regulatory functions related to Indian Gaming.

(2) Problem gambling prevention programs (Office of Problem Gambling).

(3) Grants to local government agencies impacted by Tribal gaming (Govt. Code Section 12710 et seq.).

SUMMARY OF EACH STATE AGENCY'S USE OF SDF FUNDS – SECTION (b)

Section (b) of the report requires, for each of the state agencies receiving funding from the SDF, a summary of:

- (1) The services or the activities provided that are supported by this fund;
- (2) How the agency allocated funding among the identified services or activities;
- (3) The specific amount of funding provided for each service or activity; and,
- (4) Measures of workload completed for each service or activity where available.

A summary of each state agency's use of SDF funds is listed below, and includes information provided by any state agency that has received funding from the SDF between FY 2003-04 and FY 2014-15, and includes the following information for the Commission, DOJ, DPH, CalHR, FI\$Cal, and the SCO pursuant to Section (b), as follows:

CALIFORNIA GAMBLING CONTROL COMMISSION

COMMISSION SERVICES OR ACTIVITIES SUPPORTED BY THE SDF – SECTION (b)(1)

The Commission, pursuant to the tribal-state gaming compacts (Compacts), the Gambling Control Act, and the Governor's Executive Orders D-31-01 and D-66-03, has various trustee, regulatory and administrative responsibilities related to tribal gaming and the distribution of revenues to Non-Compact, Non-Gaming and Limited-Gaming Tribes. There are currently 60 tribal casinos operated by 58 Tribes. The Commission's primary responsibilities related to tribal gaming and Non-Compact, Non-Gaming and Limited-Gaming Tribes include:

- ✓ Making suitability recommendations for tribal key employees, Gaming Resource suppliers (vendors), and Financial Sources. Under some Compacts, the Commission also has the authority to make suitability recommendations for Tribal Gaming Agency members.
- ✓ Serving as the trustee for the RSTF, including collecting and accounting for license fees from tribes, preparing reports, estimating annual shortfalls in the fund, and distributing funds to Non-Compact, Non-Gaming and Limited-Gaming Tribes based on the approved distribution methodology;
- ✓ Serving as the administrator of the SDF;
- ✓ Ensuring that the allocation of Gaming Devices among the Compact Tribes does not exceed the allowable number of machines as provided in the Compacts;
- ✓ Conducting license draws as provided in the 1999 Compacts;
- ✓ Registering gaming manufacturers and distributors;

- ✓ Reviewing registration applications for Financial Sources and bond indentures to determine if the Financial Source must be found suitable under the Compacts or qualifies for registration with the Commission pursuant to Tribal Regulations CGCC-1 and CGCC-2;
- ✓ Providing consultation to the State Controller on the methodology used to allocate SDF appropriations for grant funds county accounts;
- ✓ Providing consultation to the Department of Finance to calculate the total revenue in the SDF each year; and,
- ✓ Developing regulations related to the Compacts in coordination with the Tribal-State Association (an association of California tribal and state gaming regulators).

Prior to July 1, 2013, the effective date of the Governor's Reorganization Plan No. 2 of 2012 (GRP No. 2), the Commission received all applications and associated application fees. In addition, the Commission also conducted various Tribal audits of quarterly payments pursuant to the Compacts and tested Gaming Devices. Specifically, the Commission was responsible for the following functions that were transferred to the DOJ, Bureau of Gambling Control on July 1, 2013:

- ✓ Performing financial audits to verify the accuracy of Tribal contributions to the General Fund, SDF, RSTF and to ensure compliance with the Compacts;
- ✓ Performing other types of audits, including:
 - RSTF eligibility;
 - Commercial operation audits to validate that licensed Gaming Devices were in operation within 12 months of issuance;
 - Gaming Device counts;
 - Inspection of the minimum internal control standards adopted by the Tribe and regulated by the Tribal Gaming Agency;
- ✓ Conducting field-testing to confirm that Gaming Devices operated and played in accordance with the manufacturer's specifications and technical standards; and,
- ✓ Operating a technical services program to provide technical expertise to determine whether Gaming Devices functioned appropriately and to assure the public that gaming was conducted honestly and fairly.

HOW THE COMMISSION ALLOCATES SDF FUNDING AMONG SERVICES OR ACTIVITIES – SECTION (b)(2)

The Commission's allocations of SDF funding are based on the time that staff perform duties related to Tribal matters. As SDF-related workload is approximately 40 percent of the Commission's total workload, approximately 40 percent of the Commission's funding is from the SDF. Funding is allocated to each position on a pro-rated basis.

SPECIFIC AMOUNT OF SDF FUNDING FOR EACH COMMISSION SERVICE OR ACTIVITY –
SECTION (b)(3)

The Commission's SDF funding has totaled \$65.5 million over 12 years. SDF funding, by activity, is shown in Table 2. Administrative functions include work performed by the Legal Division, Legislation and Regulatory Affairs Division, Administration Division, Executive Director, and Commissioners. On July 1, 2013, as a result of GRP No. 2, the Commission's Compliance Division functions and a portion of the Commission's Licensing Division functions were redirected to DOJ.

Table 2
California Gambling Control Commission
SDF Funding Allocation by Service/Activity

Fiscal Year	Total Funding by Fiscal Year	Service/Activity Description	Funding by Service/Activity
2003/04	\$ 3,528,000	Licensing & Compliance Division	\$ 1,123,441
		Administrative Functions	\$ 2,404,559

		Administrative Functions	\$ 2,045,856
2014/15	\$ 2,711,000	Licensing Division	\$ 677,750
		Administrative Functions	\$ 2,033,250
Totals	\$ 65,477,000		\$ 65,477,000

MEASURES OF COMMISSION WORKLOAD COMPLETED (WHERE AVAILABLE) – SECTION
(b)(4)

The Commission's major workload measurements are shown in Table 3. This includes workload related to Tribal applications and Tribal regulations.

Table 3
California Gambling Control Commission
Measures of SDF Workload
Fiscal Year 2003-04 through 2014-15

Fiscal Year	Tribal Applications¹	Tribal Regulations - Commission Meetings²
2003/2004	811	6
2004/2005	1,637	0
2005/2006	1,762	2
2006/2007	3,027	0
2007/2008	2,493	2
2008/2009	2,300	1
2009/2010	2,794	3
2010/2011	3,331	1
2011/2012	2,705	2
2012/2013	3,168	0
2013/2014	2,938	0
2014/2015	1,493 ³	0
Totals	28,459	17

¹ The number of initial and renewal applications for findings of suitability for Tribal key employees and vendors that conduct business on Tribal casinos considered by the Commission at a publicly noticed meeting.

² Tribal regulations meetings include Commission meetings for Tribal regulations developed in coordination with the Tribal-State Association.

³ Totals through January 30, 2015.

DEPARTMENT OF JUSTICE (DOJ)

DOJ SERVICES OR ACTIVITIES SUPPORTED BY THE SDF – SECTION (b)(1)

The DOJ receives funding from the SDF annually for multiple programs as detailed below:

BUREAU OF GAMBLING CONTROL (BUREAU)

The Bureau receives funding from the SDF for programs related to Licensing; Compliance and Enforcement; Audits and Compact Compliance; and, Administrative Support of Tribal Gaming in the State of California. The funds received are used to support the following programs within the Bureau:

Licensing Section

The Bureau works with the Commission and Tribal Gaming Agencies (TGAs) to ensure the fair and honest operation of tribal gaming in California in accordance with the Indian Gaming Regulatory Act. The Compacts between California Indian Tribes and the Governor of California established a state certification process whereby all Gaming Resource Suppliers, Financial Sources, and key employees that are issued gaming licenses by the various TGAs in California are required to submit a finding of suitability application to the Bureau for consideration by the Commission.

The services/activities provided by the Licensing section are:

- ✓ Receipt of all applications and applicable fees submitted.
- ✓ Setting up the initial applicant file.
- ✓ Processing the fingerprints received for the preliminary criminal history checks.
- ✓ Conducting a background investigation pursuant to 6.5.6(b) of the Compact to determine whether the applicant is considered suitable for licensing pursuant to the Gambling Control Act. Upon conclusion of the investigation, the Bureau makes a finding of suitability recommendation to the Commission. The Commission's determination of suitability is based largely on the Bureau's background investigation findings and its written recommendation, which take into consideration a number of factors specified in the Act, including an applicant's honesty, integrity, general character, and financial and criminal histories.

Compliance and Enforcement Section (CES)

CES provides oversight to the TGAs ensuring policies are in place in accordance with the Compacts. Tribal casinos have on-site gaming regulators that have primary monitoring responsibilities.

CES is decentralized into two regions: CES-North includes the Sacramento, Redding and Fresno Field Offices which includes oversight of 35 tribal casinos. CES-South includes the Los Angeles, Riverside and San Diego Field Offices which includes oversight of 25 tribal casinos.

The Bureau conducts an annual inspection of existing tribal casinos including the review of approximately five (5) subsections of the Compact, selected randomly by Bureau staff. New tribal casinos receive a full Compact inspection by Bureau staff within the first year of operation. If a tribal casino is found to be out of compliance with the Compact, Bureau staff work with the TGA to ensure that the casino is in compliance. Additionally, CES works with the TGAs, when requested, to conduct investigations into allegations of embezzlement, money laundering, narcotic distribution, prostitution, illegal gaming, cheating scams, and other gaming related investigations.

Audits and Compact Compliance Section

As a result of GRP No. 2, responsibility for Compact compliance was shifted from Commission to the Bureau. Previously, Bureau Auditors were tasked with performing the financial investigation portion of the Findings of Suitability investigations. In 2013, the Audits and Compact Compliance Section (ACCS) was formed, bringing all auditing functions within one Section.

The ACCS is responsible for ensuring the tribal casinos remain in compliance with the Compacts, the National Indian Gaming Commission minimum internal control standards, as well as the Uniform Tribal Gaming Regulation CGCC-8, which was adopted and approved by the Tribal-State Association on April 12, 2012. ACCS ensures compliance by performing electronic Gaming Device inspections; reviewing quarterly contributions to the SDF and General Fund; verifying eligibility to receive funding from the RSTF; and Compact compliance financial reviews. In addition, the ACCS conduct the complex financial reviews of the Tribal Vendor applicants.

Administrative Support Group

The Bureau has allocated SDF funding for the Administrative Support Group (ASG). Staff in the ASG provides administrative support to the Bureau in the following areas: personnel services, budgets, purchasing, legislation, facilities coordination, contracts, and training coordination.

DIVISION OF LAW ENFORCEMENT (DLE), OFFICE OF THE DIRECTOR

The DLE provides administrative support to the Bureau.

CALIFORNIA JUSTICE INFORMATION SERVICES DIVISION, HAWKINS DATA CENTER

The Hawkins Data Center provides information technology infrastructure support to SDF activities.

PUBLIC RIGHTS DIVISION, INDIAN AND GAMING LAW SECTION

The Indian and Gaming Law Section perform the following functions:

- ✓ Advising and assisting the State of California's negotiator during tribal-state Class III gaming compact negotiations.
- ✓ Advising and assisting the State of California's representative in the meet and confer proceedings with Class III gaming compact tribes.
- ✓ Representing the State of California, the Governor, the Attorney General, the Commission, the Bureau, and/or other state agencies in state and federal court in suits arising from Class III gaming compacts, including the interpretation or implementation of those compacts.

- ✓ Representing the State of California in suits brought by tribes pursuant to the Indian Gaming Regulatory Act.
- ✓ Representing the State of California, the Governor, the Attorney General, the Commission, the Bureau, and/or other state agencies in state and federal court in suits brought by citizens, tribes or other entities challenging a Compact.
- ✓ Responding to Public Records Act requests related to tribal Class III gaming.
- ✓ Reviewing state and federal legislation and regulations relevant to tribal gaming issues.
- ✓ Advising and representing the Bureau in determinations of suitability for tribal key employees and entities providing resources to gaming tribes as required by Class III gaming compacts, including investigations and hearings before the Commission.
- ✓ Advising and representing the Bureau in connection with investigations, including criminal investigations, of activity related to tribal casinos.
- ✓ Representing the Commission in appeals of its decisions denying determinations of suitability for tribal key employees and entities providing resources to gaming tribes as required by Class III gaming compacts.
- ✓ Advising the Governor, the Bureau and the Commission regarding lawfulness of games conducted by Class III gaming tribes and entities that conduct gaming activities that may impact forms of gaming reserved to tribes.
- ✓ Advising state and local agencies on issues related to Class III gaming compact interpretation such as law enforcement, taxation, and environmental impacts, and on the agencies' enforcement efforts respecting gaming activities that may impact forms of gaming reserved to tribes.

HOW THE DOJ ALLOCATES SDF FUNDING AMONG SERVICES OR ACTIVITIES – SECTION (b)(2)

The DOJ uses funding from the SDF to support the programs identified above. The DOJ also uses funding received from the SDF to support four programs within the Bureau of Gambling Control: Findings of Suitability (Key Employees and Vendors), Compliance and Enforcement, Audit and Compact Compliance Section, and the Administrative Support Group. The Bureau does not split funding relative to each program. The methodology used by the Bureau (see Table 4) was to calculate the percentage of the total tribal positions allocated to each program in each fiscal year. The Bureau then calculated the funding based on that percentage.

SPECIFIC AMOUNT OF SDF FUNDING FOR EACH DOJ SERVICE OR ACTIVITY – SECTION (b)(3)

DOJ's SDF funding has totaled \$164.3 million over 12 years. Tables 4 through 7 show the amount of SDF funding by program, for each DOJ service or activity, as follows:

- ✓ Bureau of Gambling Control – Table 4
- ✓ Division of Law Enforcement, Office of the Director – Table 5
- ✓ California Justice Information Services Division, Hawkins Data Center – Table 6
- ✓ Public Rights Division, Indian and Gaming Law Section – Table 7

		Compliance Enforcement Section Investigations	7285
		Audit and Compact Compliance Section	4713
		Administrative Support Group	1285
Totals	\$145,099		\$145,099

*The Compact Compliance Section was moved to the Bureau pursuant to GRP No. 2, effective July 1, 2013, and was subsequently consolidated into the Audits and Compact Compliance Section. Prior to that date, Compact compliance fell under the responsibility of the California Gambling Control Commission. The Bureau did have audit staff funded by SDF during Fiscal Years 03/04-12/13; however, the associated expenditures are included within the Findings of Suitability programs as the audit staff was solely tasked with financial audits relative to Tribal vendor applications.

* Prior to FY 13/14, the Audit section was tasked with performing financial review for the finding of suitability investigations for Tribal Vendors.

**After GRP No. 2, the Audit and Compact Compliance Section was transferred to the Bureau, and began performing audits of tribal casinos to ensure Compact compliance.

DEPARTMENT OF HUMAN RESOURCES (CalHR)

CalHR SERVICES OR ACTIVITIES SUPPORTED BY THE SDF – SECTION (b)(1)

CalHR has received funding from the SDF to provide tribal arbitration services. In September 1999, as authorized by Section 10.7 of the Compacts, a Tribal Labor Relations Ordinance was adopted that provided for administration of labor relations concerns by a body referred to as the “Tribal Labor Panel.” Per the ordinance, the Tribal Labor Panel is comprised of ten arbitrators initially appointed by mutual selection of the parties to serve all tribes that have adopted the ordinance. The Tribal Labor Panel has authority, for dispute resolution, to hire staff and take other actions necessary to conduct elections, determine units, determine scope of negotiations, hold hearings, subpoena witnesses, take testimony, and conduct all other activities needed to fulfill its obligations under the Tribal Relations Ordinance. The CalHR contracts with the American Arbitration Association to serve as administrator of the Tribal Labor Panel.

Prior to the Governor’s Reorganization Plan No. 1 (operative July 1, 2012) that transferred the functions of the Department of Personnel Administration to the Department of Human Resources, these tribal arbitration services were provided by the Department of Personnel Administration.

HOW CalHR ALLOCATES SDF FUNDING AMONG SERVICES OR ACTIVITIES – SECTION (b)(2)

All of CalHR’s SDF funding is allocated for arbitration services related to the Tribal Labor Panel, as shown in Table 11. Funds have been allocated from the SDF to CalHR to provide support for its labor relations duties pursuant to Government Code section 12012.85(e). Government Code section 12012.5(d) and 12012.25(d) separately provide that “The Governor is the designated state officer responsible for negotiating and executing, on behalf of the state, tribal-state gaming compacts with federally recognized Indian tribes in the State of California pursuant to the federal Indian Gaming Regulatory Act of 1988 (18 U.S.C. Sec. 1166 et seq. and 25 U.S.C. Sec. 2701 et seq.) for the purpose of authorizing Class III gaming, as defined in that act, on Indian lands.”

SPECIFIC AMOUNT OF SDF FUNDING FOR EACH CalHR SERVICE OR ACTIVITY – SECTION (b)(3)

CalHR’s SDF funding has totaled \$615,000 over eight years for tribal arbitration services. SDF funding is shown in Table 11. This amount includes SDF funding provided to the former Department of Personnel Administration.

Table 11

* For FY 2003/04 through FY 2006/07 arbitration services were provided by the Department of Personnel Administration.

CalHR: MEASURES OF WORKLOAD (WHERE AVAILABLE) – SECTION (b)(4)

CalHR does not have workload measurements.

FINANCIAL INFORMATION SYSTEM FOR CALIFORNIA (FI\$Cal)

FI\$Cal SERVICES OR ACTIVITIES SUPPORTED BY THE SDF – SECTION (b)(1)

The FI\$Cal Project is a partnership of four control agencies: the Department of Finance, the State Controller's Office, the State Treasurer's Office, and the Department of General Services. FI\$Cal will provide a single integrated financial management system that will re-engineer the statewide business processes related to budgeting, accounting, cash management, and procurement. All eligible fund sources are assessed a charge for the development and implementation of the FI\$Cal system based on each fund's pro-rata share of the costs. This reflects the extent to which the Commission and Bureau will rely upon and benefit from this program in performing their compact related duties.

HOW FI\$Cal ALLOCATES SDF FUNDING AMONG SERVICES OR ACTIVITIES – SECTION
(b)(2)

FI\$Cal allocates SDF funds per Control Section 8.88 of the Budget Act for transfer to the FI\$Cal Internal Services Fund for payment of costs to replace the systems that support the state's business operations. This allocation reflects extent to which the Commission and Bureau will rely upon and benefit from this program in performing their compact related duties.

SPECIFIC AMOUNT OF SDF FUNDING FOR EACH FI\$Cal SERVICE OR ACTIVITY – SECTION
(b)(3)

FI\$Cal's SDF funding has totaled \$376,000 over five years for costs related to the FI\$Cal Project. SDF funding is shown in Table 12.

FI\$Cal: MEASURES OF WORKLOAD (WHERE AVAILABLE) – SECTION (b)(4)

FI\$Cal does not have workload measurements to support its activities.

CALIFORNIA DEPARTMENT OF PUBLIC HEALTH (DPH)

DPH SERVICES OR ACTIVITIES SUPPORTED BY THE SDF – SECTION (b)(1)

The Office of Problem Gambling (OPG) is mandated to establish a prevention program that provides the following:

- Toll-free Helpline.
- Public Awareness Campaign that focuses on diverse and vulnerable populations, such as youth.
- Training for health care providers, educators, non-profit organizations, law enforcement and gambling industry employees on the signs and symptoms of problem gambling.
- Evidence-based research.
- Supporting a treatment services program for gambling addicts and affected family members.

Prior to FY 2013-14, the Office of Problem Gambling was established within the Department of Alcohol and Drug Programs.

HOW THE DPH ALLOCATES SDF FUNDING AMONG SERVICES OR ACTIVITIES – SECTION (b)(2)

The OPG allocates funds in accordance with its statutory mandate (Welfare and Institutions Code 4369).

AMOUNT OF SDF FUNDING FOR EACH DPH SERVICE OR ACTIVITY – SECTION (b)(3)

DPH's SDF funding has totaled \$69.2 million over twelve years for prevention programs, including \$41.2 million for state operations (providing funding for the prevention program and support for the treatment program, in addition to, training, research, personnel services and operating expenses) and \$28 million for local assistance. SDF funding, by activity, is shown in Table 13.

MEASURES OF DPH WORKLOAD (WHERE AVAILABLE) – SECTION (b)(4)

OPG workload measurements can be found in Table 14.

STATE CONTROLLER'S OFFICE (SCO)

SCO SERVICES OR ACTIVITIES SUPPORTED BY THE SDF – SECTION (b)(1)

The SCO receives funding from the SDF, as detailed below.

21ST CENTURY PROJECT. In accordance with the Budget Acts, Control Section 25.25 for fiscal years 2004-05 through 2014-15, actual costs are charged to various special and nongovernmental cost funds, to reimburse the Controller for payment of costs to support the replacement of the existing automated human resource/payroll system known as the 21st Century Project. The 21st Century Project was designed to provide a comprehensive statewide personnel and payroll system for use by all state departments to streamline the human resource process. Government Code Section 12432 authorizes the Controller to assess special and nongovernmental cost funds to pay actual costs incurred. All eligible fund sources are assessed a charge for the development of the 21st Century Project based on each fund's pro-rata share of the costs. This allocation reflects extent to which the Commission and Bureau will rely upon and benefit from this program in performing their compact related duties.

LOCAL MITIGATION GRANTS. Government Code Sections 12710-12718 specify the methods for calculating the appropriations from the SDF for grants to local government agencies impacted by tribal gaming. The SCO allocates the SDF appropriation to individual and county tribal casino accounts based on revenue and gaming device data received from the Commission. A list of projects approved by each county's Indian Gaming Local Community Benefit Committee (Committee) is submitted to the SCO, and SCO pays the local government entity for which a grant has been approved by the

Committee.

HOW THE SCO ALLOCATES SDF FUNDING AMONG SERVICES OR ACTIVITIES – SECTION
(b)(2)

The SCO allocates SDF funds per Control Section 25.25 of the Budget Act for the 21st Century Project as described above. The SCO allocates SDF funds for local mitigation grants pursuant to Government Code Sections 12710-12718.

AMOUNT OF SDF FUNDING FOR EACH SCO SERVICE OR ACTIVITY – SECTION (b)(3)

21ST CENTURY PROJECT. The SCO's SDF funding has totaled \$153,473 for the 21st Century Project. SDF funding for the 21st Century Project is shown in Table 15.

Table 15
State Controller's Office - 21st Century Project
SDF Funding Allocation by Service/Activity
Fiscal Year 2003-04 through 2014-15

Fiscal Year	Service/Activity Description (2)	Funding by Service/ Activity (1)
2003/04	No Budget Act Sec 25.25 existing in this fiscal year.	0
2004/05	Budget Act Ch 208, Sec 25.25, replacement of payroll system "21st Century Project".	3,561
2005/06	Budget Act Ch 38/39, Sec 25.25, replacement of payroll system "21st Century Project". Fund was not submitted for DOF approval.	0
2006/07	Budget Act Ch 47/48, Sec 25.25, replacement of payroll system "21st Century Project". Fund was not approved by DOF.	0
2007/08	Budget Act Ch 171/172, Sec 25.25, replacement of payroll system "21st Century Project". Fund was not approved by DOF.	0
2008/09	Budget Act Ch 268/269, Sec 25.25, replacement of payroll system "21st Century Project". Fund was not submitted for DOF approval.	0
2009/10	Budget Act Ch 1, Sec 25.25, replacement of payroll system "21st Century Project".	23,000
2010/11	Budget Act Ch 712, Sec 25.25, replacement of payroll system "21st Century Project".	55,635
2011/12	Budget Act Ch 33, Sec 25.25, replacement of payroll system "21st Century Project".	47,875
2012/13	Budget Act Ch 21/29, Sec 25.25, replacement of payroll system "21st Century Project".	21,500
2013/14	Budget Act Ch 20, Sec 25.25, payroll system "21st Century Project"--legal services, payroll mitigation, payroll stabilization, payroll reconciliation.	1,902
2014/15	Budget Act Ch 25, Sec 25.25, payroll system "21st Century Project".	0
Totals		\$153,473

(1) For FY 2003/04 through FY2013/14 the amounts reflected are actual assessments, in actual dollars and cents.

(2) In accordance with Budget Acts, Sec.25.25 for fiscal years 2004-05 through 2014-15, actual costs are charged to various special and nongovernmental cost funds, to reimburse the Controller for payment of costs to support the replacement of the existing human resource/payroll systems known as the 21st Century Project. Government Code Section 12432 authorizes the Controller to assess special and nongovernmental cost funds to pay actual costs incurred.

The assessment of costs to special and nongovernmental costs funds is authorized and approved by the Department of Finance prior to the transfer of funds.

LOCAL MITIGATION GRANTS. While the SCO does not receive appropriations from the SDF for local mitigation grants, this funding is a “pass-through” from the Commission’s Budget. These grant funds are released from the SCO and have totaled approximately \$221.6 million. Funding for local mitigation grants is shown in Table 16. See Appendices A through L for SDF funding by fiscal year, county, and activity. Grants have been awarded for a variety of purposes, including law enforcement, fire services, emergency medical services, environmental impacts, water supplies, waste disposal, behavioral, health, planning and adjacent land uses, public health, roads, recreation and youth programs, and child care programs.

Table 16
State Controller's Office - Local Mitigation Grant Funding

2008-09	29,901,795.14	30,000,000.00	(98,204.86)
2009-10	No Appropriation in Fiscal Year 2009-10		
2010-11	29,858,977.17	30,000,000.00	(141,022.83)
2011-12	9,042,938.54	9,100,000.00	(57,061.46)
2012-13	9,059,063.68	9,100,000.00	(40,936.32)
2013-14	9,060,550.75	9,100,000.00	(39,449.25)
2014-15	No Appropriation in Fiscal Year 2014-15		
Totals	\$221,712,290	\$222,583,000	(\$870,710)

Notes: Funds not allocated from an individual or county tribal account to a project/grant approved by the Indian Gaming Local Community Benefit Committee by the end of the fiscal year shall revert back to the Indian Gaming Special Distribution Fund (per Government Code Sections 12715(f)(2) and 12715 (k)(2)).

No appropriation is received by the State Controller's Office from the SDF for the apportionment of SDF funds.

MEASURES OF SCO WORKLOAD (WHERE AVAILABLE) – SECTION (b)(4)

The SCO does not receive funding from the SDF for the local mitigation grant allocation/payment activity; therefore, workload metrics are not applicable. The SDF assessment in support of the SCO’s 21st Century Project is a recovery of actual costs from applicable non-general fund sources through a fee based on the number of payments issued from the SCO payment history system. Workload metrics in support of the actual costs incurred are reported through separate quarterly and annual reports of the 21st Century Project to the Joint Legislative Budget Committee.

HOW PROBLEM GAMBLING, REGULATION, AND LOCAL MITIGATION PAYMENTS AND ACTIVITIES ARE FUNDED BY HORSE RACING, THE STATE LOTTERY, AND CARDROOMS – SECTION (c)

Section (c) of the report requires “a description of how problem gambling, regulation, and local mitigation payments and activities are funded by horse racing, the State Lottery, and cardrooms.” The report requires the California Horse Racing Board and the State Lottery to provide such information to the Commission. The Commission also reached out to cardroom trade organizations to seek their input. As it relates to local mitigation payments, this is intended to mean payments and activities that offset the impact that gaming has on local government agencies. The information requested in this report was intended to provide a comparison with the local mitigation grant program funded by the SDF to award grants to local government agencies to mitigate tribal casino impacts.

HORSE RACING

PROBLEM GAMBLING. According to the California Horse Racing Board (CHRB), Since 2008, \$1.4 million has been paid by California horse racing associations or fairs “for the purpose of augmenting a compulsive gambling prevention problem specifically addressing that problem.” In addition, if the amount collected from advanced deposit wagering exceeds expenses incurred, the excess shall be forwarded to an organization designated by the racing associations or fairs for the purpose of augmenting a compulsive gambling prevention program as provided under Business and Professions Code section 19604.

Horse racing associations have designated their choice of recipient organization for augmenting a compulsive gambling prevention program. The recipient has been the “Winners Foundation”. The CHRB has forwarded funds to this foundation, which supports the horse racing industry with several programs, including problem gambling prevention (see Appendix M for an example of a designation letter from Los Alamitos Quarter Horse Racing Association). As is the case with several designation letters, this racing association made a continuous designation. The Winners Foundation will be a continuous designation until the CHRB is informed otherwise.

REGULATION. In regulating pari-mutuel wagering, one of the CHRB’s principle activities is to collect the state’s lawful share of revenue derived from California horse racing meets. The CHRB is responsible for the collection and deposit of certain portions of the funds generated by pari-mutuel wagering. This revenue, also known as the handle, represents wagering receipts collected by racetracks, including California fairs, for wagers placed on horse race meetings run in California. The handle includes monies wagered at establishments located off-site (satellite facilities) but still in the state; online via the internet (advanced deposit wagering), and out-of-state entities that collect wagers on California horse races.

In accordance with Business and Professions Code section 19604(f)(2) the CHRB collects a portion of advanced deposit wagers (online via the internet) and distributes these funds to the Public Employment Relations Board to cover costs associated with audits conducted pursuant to section 19526 and for the reimbursement of costs to the State Mediation and Conciliation Service.

LOCAL MITIGATION. Local municipalities receive a percentage of handle (monies wagered) at a racetrack within their borders. In 2014, this deduction totaled \$3.6 million and was paid to 32 local municipalities where racetracks or satellite wagering facilities are located. In addition, California horse racing associations distribute race proceeds to charity on designated race days, for designated races published in racing programs for the public. These race day charity donations are approved by the CHRB at publicly-noticed meetings. The racing association determines the charity; Commissioners merely vote to approve the donation. These designated charity dollars pass from the racing association directly to the charity. The CHRB does not handle the charity dollars.

CALIFORNIA LOTTERY

PROBLEM GAMBLING. The California Lottery (Lottery) has an Interagency Agreement with DPH (which oversees OPG) and provides \$120,000 in annual funding for:

- Maintenance cost for the 1-800-GAMBLER problem gambling helpline;
- Appropriate literature/brochures for distribution to helpline clients and retailers;
- Articles for the Lottery's publications;
- Content for the Lottery web site; and,
- Any additional programs that further the purposes of the DPH with problem gambling issues.

A portion of the Lottery funding also supports Betting on Our Future (BOOF), a youth-driven problem gambling awareness campaign supported by the California Friday Night Live Partnership.

The Lottery is also an active member of OPG's Advisory Group which is comprised of state regulating agencies (including the Commission), gambling industry representatives, educators, researchers, and advocates who discuss priorities and strategies for educating and training individuals engaged in problem gambling related issues. Other costs associated with the Lottery's problem gambling outreach and Responsible Gaming campaigns include \$147,060 that is also absorbed by the operational budget.

REGULATION. The Lottery was created by a ballot measure in 1984 that amends the California Constitution to authorize the establishment and operation of a state lottery. Regulatory costs are self-funded via revenues generated by the sale of lottery tickets.

LOCAL MITIGATION. As mandated by the Lottery Act, the Lottery is charged with providing supplemental funding for public schools and colleges. Last fiscal year, the Lottery provided \$1.35 billion in supplemental funding for California's public education system.

CARDROOMS

PROBLEM GAMBLING.

Pursuant to Business and Professions Code 19954, established by AB 1973 (Bermudez, Chapter 854, Statutes of 2006), every cardroom is required to pay an annual \$100 per table fee to DPH, for deposit into the Gambling Addiction Program Fund. Deposits are also made into this fund for forfeited winnings by patrons that violate voluntary agreements to self-exclude from gambling in cardrooms. Gambling Addiction Program Fund moneys are allocated by OPG to community-based organizations that directly provide aid and assistance to those persons with a gambling addiction. According to OPG, funds are currently allocated to NICOS Chinese Health Coalition for the Asian language helpline. NICOS also conducts outreach at community events to increase knowledge of gambling addiction and to promote the helpline. The helpline offers immediate crisis management for gamblers and individuals that are negatively impacted by problem gambling behavior and provides referrals to multi-lingual, multi-cultural treatment services.

Since FY 2009-10, expenditures from the Gambling Addiction Program Fund have totaled \$906,000 and are shown in Table 17.

Table 17
110 Gambling Addiction Program Fund Expenditures
Office of Problem Gambling
Fiscal Year 2009-10 through 2014-15

Fiscal Year	Agency	Total Funding by Fiscal Year
2009/10	DADP*	150,000
2010/11	DADP	166,000
2011/12	DADP	119,000
2012/13	DADP	159,000
2013/14	DPH**	158,000
2014/15	DPH	154,000
Totals		\$906,000

* Department of Alcohol and Drug Programs

** OPG was transferred from the Department of Alcohol and Drug Programs to the Department of Public Health in FY 2013-14.

According to information provided by the CGA, their members work closely with their jurisdictional partners to address issues surrounding problem gambling. Additional information on problem gambling programs associated with cardrooms is provided below (see “Local Mitigation”).

REGULATION.

The regulation and enforcement of the cardroom industry is funded by fees paid to the Gambling Control Fund by the cardroom industry, including Third Party Providers of Proposition Players Services, for the support of the Commission and DOJ in carrying out their duties and responsibilities under the Gambling Control Act (Business and Professions Code section 19800 et seq.). Applicants for initial or renewal licenses are required to pay an application fee. Cardrooms are also required to pay annual table fees based on the number of tables. In addition, applicants are required to pay expenses incurred by DOJ for the background investigation. Investigation expense funds are deposited into an investigative account within the Gambling Control Fund. The Gambling Control Act also authorizes the collection of fines and penalties that are deposited into a special account in the General Fund. These funds may be expended by DOJ to offset enforcement costs.

LOCAL MITIGATION. Cardrooms are required pay various annual fees and taxes to local jurisdictions that vary by jurisdiction. According to information provided by the CGA, each cardroom is authorized to operate in its jurisdiction by city and/or county ordinances. Most of the ordinances they have reviewed provide for some combination of tax payments based on revenue, payments based on tables in operation and/or a fixed monthly/quarterly/annual fee.

CGA believes that certain ordinances also call for cardrooms to make additional special payments to the jurisdiction of offset problem gambling programs and law enforcement oversight. Based on information obtained by the Commission from local jurisdictions, some cardrooms are required to fund problem gambling programs or provide services related to problem gambling. For example, one jurisdiction requires cardrooms to make payments to fund local gambling addiction programs, while another jurisdiction requires problem gambling literature to be made available to patrons.

The CGA also indicates that other payments to local jurisdictions include fees for work permits (background work, interviews and issuance), fees for contracted police officer coverage (e.g. officers to help provide security and special events) and fees for game approvals, ordinance modifications and appeals of city-mandated patron exclusions. In addition, the CGA indicates that the majority of fees paid by cardrooms to their respective jurisdictions are used for police and fire support, mitigation of resource use and other local services. Furthermore, the CGA indicates that the majority of fees paid by their member cardrooms to their respective jurisdictions are believed to be “general fund” monies that are used for police and fire support, mitigation of resource use, and other local services.

Commission staff contacted local jurisdictions regarding payments that cardrooms are required to make to local jurisdictions and confirmed that some cardrooms are required to pay taxes or fees that are deposited into the general fund. These funds are primarily used for law enforcement. One jurisdiction also requires cardrooms to pay for supplemental police services to cover the actual costs of weekend police services related to the cardrooms.

Furthermore, the CGA indicates that their members work closely with their jurisdictional partners to mitigate local resource impacts. In several of the jurisdictions that their members operate, the CGA indicates that the cardroom is a significant (and in some cases the largest) contributor to the host jurisdiction's general fund and their members have regular conversations with local officials to ensure a safe gaming experience for the general public without unnecessary burden on the host jurisdiction (Joe Patterson, Executive Director, CGA, Letter to Tina M. Littleton, Executive Director, Commission. 18 November 2014).

HOW THE COMMISSION DETERMINES A TRIBE'S PRO RATA SHARE OF STATE COSTS – SECTION (d)

Section (d) of the report requires a description of how the Commission determines a tribe's pro rata share of state costs pursuant to terms contained in their Compact or secretarial procedures as specified in the Indian Gaming Regulatory Act (IGRA). IGRA was enacted by the United States Congress on October 17, 1988. The objectives of IGRA are to promote tribal self-sufficiency, to ensure that Indian tribes remain the primary beneficiaries of gaming revenues from reservation gaming activities, to establish procedures for fair and honest gambling, and to set standards for the National Indian Gaming Commission.

25 U.S.C Section 2710(d)(3)(C)(iii) of IGRA allows Class III gaming compacts to include provisions for "the assessment by the State of such activities in such amounts as are necessary to defray the costs of regulating such [gaming] activity." Recent Class III gaming compacts¹ negotiated, ratified and approved involving the State of California have included a pro rata formula to fairly and efficiently allocate the allowable costs incurred by the State arising from the regulation of tribal gaming activities to the tribes who conduct those activities. Only three tribes with Compacts/Secretarial Procedures that include such language are currently conducting Class III gaming operations and making contributions to the SDF. The two amended and restated Compacts with the Viejas Band of Kumeyaay Indians and Shingle Springs Band of Miwok Indians and the Secretarial Procedures for the Rincon Band of Luiseno Indians require these tribes to pay to the State, on a pro rata basis and pursuant to a specified formula, the actual and reasonable costs that the state incurs for the performance of all its duties under these Compacts and Secretarial Procedures, as established by the monies appropriated in the annual Budget Act for the performance of their duties under the Compacts each fiscal year².

The Commission determines a tribe's pro rata share of state costs. The tribe's pro rata share of state costs is calculated by employing the following equation:

The maximum number of gaming devices operated in the gaming facility for the previous fiscal year as determined by the State Gaming Agency (Commission), divided by the maximum number of gaming devices operated by all federally recognized tribes in California pursuant to tribal-state Class III gaming compacts during the previous fiscal year, multiplied by the state's appropriated costs for the performance of duties by state agencies related to Class III gaming compacts.

¹ Compacts that require pro rata payments include the Fort Independence Indian Community of Paiute Indians of the Fort Independence Reservation, Ramona Band of Cahuilla, Karuk Tribe, Viejas Band of Kumeyaay Indians and Shingle Springs Band of Miwok Indians.

² Other tribes are subject to other payment structures that are used to fund the state's costs to regulate tribal gaming.

CONCLUSION

SDF EXPENDITURES. SDF expenditures to support problem gambling, regulatory costs, and local mitigation grants totaled approximately \$521.7 million from FY 2003-04 through 2014-15. The highest expenditures for these services were for local mitigation grants to local jurisdictions (\$221.1 million and 43 percent of expenditures). Other primary expenditures were for:

- DOJ: \$164.3 million and 31.5 percent of expenditures;
- DPH: \$69.2 million and 13.3 percent of expenditures; and,
- Commission: \$65.5 million and 12.5 percent of expenditures.

USE OF FUNDS FROM THE SDF. Services and activities performed by state agencies receiving SDF funds generally include the following categories:

The primary services and activities funded by the SDF generally include the following:

- Regulation and Enforcement;
- Problem Gambling Prevention and Treatment;
- Local Mitigation Grants; and,
- Legal.

HOW HORSE RACING, THE STATE LOTTERY AND CARDROOMS FUND PROBLEM GAMBLING, REGULATION, AND LOCAL MITIGATION.

Problem Gambling. While each of these gambling industries has provided some level of support for problem gambling programs, funding from the SDF is the primary funding source for OPG.

Regulation. State regulation and enforcement of horse racing and cardrooms has been funded entirely by industry fees. Regulation and enforcement of the State Lottery is self-funded by revenues from the sale of lottery tickets.

Local Mitigation. Each of these gambling industries provides some form of local mitigation. Local municipalities receive a percentage of handle at a racetrack within their borders. In 2014, this deduction totaled \$3.6 million and was paid to 32 local municipalities where racetracks or satellite wagering facilities are located. California horse racing associations distribute race proceeds to charity on designated race days.

The State Lottery is required to provide supplemental funding for public schools and

colleges. Last fiscal year, the Lottery provided \$1.35 billion in supplemental funding for California's public education system.

Cardrooms are required to pay various annual fees and taxes to local jurisdictions that vary by jurisdiction. According to the California Gaming Association, certain local ordinances require additional special payments to the jurisdiction to offset problem gambling programs and law enforcement oversight. They also indicate that the majority of local fees paid by cardrooms to their respective jurisdictions are believed to be "general fund" monies that are used for police and fire support, mitigation of resource use, and other local services.

HOW THE COMMISSION DETERMINES A TRIBE'S PRO RATA SHARE OF STATE COSTS PURSUANT TO COMPACTS OR SECRETARIAL PROCEDURES.

The tribe's pro rata share of state costs is calculated by the following equation:

The maximum number of gaming devices operated in the gaming facility for the previous fiscal year as determined by the State Gaming Agency (Commission), divided by the maximum number of gaming devices operated by all federally recognized tribes in California pursuant to tribal-state Class III gaming compacts during the previous fiscal year, multiplied by the state's appropriated costs.

APPENDIX M – LETTER FROM LOS ALAMITOS QUARTER HORSE RACING ASSOCIATION

May 22, 2013

Mr. Kirk Breed
California Horse Racing Board
1010 Hurley Way, Suite 300
Sacramento, CA 95825

Re: Distribution of Certain ADW Proceeds

Dear Mr. Breed:

Pursuant to Section 19604(f)(2) of the Business and Professions Code, an amount equal to .03% of The California ADW handle is payable to the Department of Industrial Relations to cover certain costs associated with audits conducted pursuant to Section 19526 and for the purpose of reimbursing the State Medication and Reconciliation Service for costs incurred pursuant to the ADW law. The section further provides that if the amount received under this section exceeds the amounts required by the Department of Industrial Relations and State Medication and Reconciliation Service, the excess funds shall be forwarded to an organization, designated by the racing association, for the purpose of augmenting a compulsive gambling program.

Los Alamitos Quarter Horse Racing Association ("Los Alamitos") is a racing association as defined in the statute. It is our understanding that a surplus does in fact exist and must be distributed. Los Alamitos does hereby elect to, and does hereby direct you to distribute the surplus of such funds for Los Alamitos to the following organization, which has a program to help those affected by gambling related problems:

Winners Foundation
283 West Huntington Drive
Arcadia, CA 91007

The Foundation will be our designated recipient of these funds in future periods unless rescinded in writing.

Yours truly,

Richard M. English
